

# STBA Masterclass

## 2016 STBA London Masterclass series

Venue (for all Masterclasses):  
The Foundry, 5 Baldwin Terrace,  
Islington, London N1 7RU

Times: from 2.00 until 6.00, followed by drinks & networking (until 7.00)

### New problems for old buildings

*Whether planning a retrofit or encountering an existing retrofit of a traditional building there are many issues and potential conflicts to take into consideration; either to prevent creating new problems for the building, or exacerbating existing problems, or to determine the current condition and performance of a building that has been subject to a Retrofit.*

*Richard will share his practical experiences of both building conservation and retrofit of traditional buildings and take the delegates through a step-by-step approach of what to look for and what to take into account using real-life case studies.*

*The Masterclass will illustrate the need to understand the building and what this means in practice, which is central to the STBA Whole-house approach.*

*About the trainer:*

*Richard Oxley, of Oxley Conservation, is a full member of the IHBC and is an RICS Certified Historic Building Professional. Richard started Oxley Conservation, a specialist historic buildings consultancy, in 1997. His publications include "Survey and Repair of Traditional Buildings – A Sustainable Approach" and he jointly drafted CIBSE's "Guide to Building Services for Historic Buildings – Sustainable Services for Traditional Buildings".*

### The Whole-House Approach in Practice 6<sup>th</sup> December with Nicholas Heath

*What is the new 'Whole-House' approach and how does it differ from what we've been doing? How can you achieve this and minimise the risks.*

*Bristol City Council are introducing this more responsible approach to their traditional building retrofit programmes, with demonstrable benefits for buildings and people.*

### Ventilation, Energy Efficiency & Old Buildings with Ian Mawditt

*Many fabric energy efficiency can significantly change the way moisture behaves in a building, to the detrimental of occupants and fabric health. A planned ventilation strategy is essential. But what strategies are available & what are the challenges?*

### Internal Wall Insulation for Solid Walls with Neil May & Valentina Marincioni

*Insulation, moisture movement & thermal bridging, the physics, the evidence and strategies to reduce risk for solid wall buildings.*

**Cost per Masterclass: £120+VAT**

**£90+VAT (Partners), £60+VAT (STBA Affiliates & Patrons)**

**Bookings via Debbie at [info@stbauk.org](mailto:info@stbauk.org). Or call Roger Southcott on 0207 704 3503**

Discounts for booking 2 or more in 2016 series: £100+VAT, £75+VAT (Partners), £50+VAT (Members)

*Please note, as these are Masterclasses, delegates will be required to have some previous knowledge and/or experience.*

**The Sustainable Traditional Buildings Alliance**
